CODERED IR

ISO 27001:2022 | ISO 27017:2015 | TOP 250 MSSP

NACSA Certified: MSOC Monitoring Service License | Penetration Testing Service Provider License

Credit-Activated Security Services – Instant. Global. No Retainers.

ZERO RETAINER OVERHEAD

Procure comprehensive security services upfront without annual fees or mandatory monthly spend

INSTANT ACTIVATION

Deploy certified experts immediately, dramatically reducing MTTR and minimizing breach impact

FULL SPECTRUM COVERAGE

Access 10 essential security services from incident response to remediation support under one flexible credit model

SERVICES & CREDIT USAGE

SERVICE	DESCRIPTION	CREDITS
Incident Response (IR)	Full NIST IR Lifecycle support (Containment, Eradication, Recovery) for active breaches including ransomware, unauthorized access, and data exfiltration	**Min. 3 Credits** Per SR ticket
Compromise Assessment (CA)	Investigation analyzing systems, logs, and artifacts for IOCs, active threats, or dormant malware	**Min. 5 Credits** Per SR ticket (5 man-days)
Penetration Testing (PT)	Authorized simulated cyberattacks to identify vulnerabilities and validate defensive capabilities	**Min. 10 Credits** Equivalent to 10 man-days effort
Vulnerability Assessment (VA)	Automated and manual identification of security vulnerabilities using scanning tools and testing methodologies	**Min. 3 Credits** Up to 50 hosts/IP addresses
Red Teaming (RT)	Goal-oriented adversary simulation testing detection and response capabilities across people, processes, and technology	**Min. 3 Credits** Per test case (varies by complexity)
Takedown Services (Managed Takedown)	Removal of malicious infrastructure including phishing sites, fraudulent domains, and C2 servers	**1 Credit** Per site takedown
Malware Analysis (MA)	Static and dynamic analysis to understand malware functionality, behavior, and indicators of compromise	**Min. 3 Credits** Per SR ticket
Awareness Training (Security Training)	Security awareness training to educate employees on cyber threats, social engineering tactics, and secure behavior practices	**Min. 3 Credits** Per SR ticket
Phishing Assessment (Social Engineering)	Controlled simulations testing employee susceptibility to social engineering and identifying training needs	**Min. 5 Credits** Up to 500 employee emails
Security Remediation & Implementation (SRIS)	Hands-on technical assistance to implement security fixes, configure controls, and deploy recommended solutions	**Min. 3 Credits** Per SR ticket
